## ADMINISTRATION OF CITY AND COUNTY SALES TAXES

710:65-18-3. Sourcing of retail sales

For those sales that are not of mobile telecommunications services and are not the lease or rental of tangible personal property other than transportation equipment, the sales shall be sourced to the location for which city and county sales taxes will be charged in the following manner:

- (1) When the product is received by the purchaser at a business location of the seller, the sale is sourced to that business location;
- (2) When the product is not received by the purchaser at a business location of the seller, the sale is sourced to the location where receipt by the purchaser, or the purchaser's donee, designated as such by the purchaser, occurs, including the location indicated by instructions for delivery to the purchaser or donee, known to the seller. Provided, this [paragraph] shall not apply to florists until January 1, 2006. Prior to that date, all sales by florists shall be sourced to its business locations;
- (3) When the provisions of paragraphs (1) and (2) of this subsection do not apply, the sale is sourced to the location indicated by an address for the purchaser that is available from the business records of the seller that are maintained in the ordinary course of the seller's business when use of this address does not constitute bad faith;
- (4) When the provisions of paragraphs (1), (2), and (3) of this subsection do not apply, the sale is sourced to the location indicated by an address for the purchaser obtained during the consummation of the sale, including the address of a purchaser's payment instrument, if no other address is available, when use of this address does not constitute bad faith; and,
- (5) When none of the previous rules of paragraphs (1), (2), (3) or (4) of this subsection apply, including the circumstance in which the seller is without sufficient information to apply the previous rules, then the location will be determined by the address from which tangible personal property was shipped, from which the digital good or the computer software delivered electronically was first available for transmission by the seller, or from which the service was provided, disregarding for these purposes any location that merely provided the digital transfer of the product sold. # PERMANENT RULES OF THE OKLAHOMA TAX COMMISSION

The permanent rules of the Oklahoma Tax Commission, used in interpreting and applying Oklahoma tax statutes, have been codified as Title 710 of the Oklahoma Administrative Code (OAC). The OAC has recently been published by the Office of Administrative Rules, a department of the Secretary of State, and is the source of all official agency rules. However, these rules, while not "official," are identical to those filed for codification, except that an effort has been made to utilize all space.\*

These unofficial permanent rules of the Oklahoma Tax Commission are available without charge to the public. The rules are downloadable from our web site at [www.oktax.state.ok.us](http://www.oktax.state.ok.us) (click on "Forms, Rules and Publications"). Please indicate the Chapters you wish to receive, fill in the shipping information, and send to the attention of:
