

An Electronic Newsletter for Residents of The Village

RECYCLING DROP-OFF CONTAINERS AVAILABLE

Drop off containers for recyclables are now available at Public Works located at 1701 NW 115th street. The center is only available to residents of The Village and is open during normal working hours.

In December, the City's recycling contractor notified the City that due to austere market conditions, our **"single stream"** or **unsorted** recyclables would no longer be accepted by the recycling center and would have to be put in the landfill until market conditions turn around. Recycling containers for [glass, paper and cardboard, metals and plastics](#) have been provided for residents as a means to continue recycling until market conditions turn around or until a new curbside program can be implemented. *(Since the materials put in the drop off boxes are already sorted, they are accepted by recyclers.)* Citizens can also take advantage of paper recycling drop off containers provided at various churches and schools in The Village.
