Whenever any roadway has been divided into two (2) or more clearly marked lanes for traffic, the following rules in addition to all others consistent herewith shall apply:

(1) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety, and then given a signal, not less than one hundred (100) feet traveled by the vehicle, or his intention to change lanes.

(2) Upon a roadway which is divided into three (3) lanes, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle where the roadway is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where such center lane is at the time allocated exclusively to traffic moving in the direction the vehicle is proceeding and is signposted to give notice of such allocation.

THE VILLAGE CITY CODE

(3) Upon a roadway which is divided into four (4) or more lanes, a vehicle proceeding at less than the maximum posted speed, except when reduced speed is necessary for safe operation, shall not impede the normal flow of traffic by driving in the left lane. Such vehicle shall be driven in the right-hand lane except when overtaking the passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

Official signs may be erected directing slow-moving traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such sign.

Sec. 13-111. Following too closely.

(b) The driver of any truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residential district and which is following another truck or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or another vehicle.

(c) No vehicle, which has more than six (6) tires in contact with the road, shall approach from the rear of another vehicle, which has more than six (6) tires in contact with the road closer than three hundred (300) feet except when passing the vehicle.

(d) Motor vehicles being drawn upon any roadway outside of a business or residential district in a caravan or motorcade, whether or not towing other vehicles, shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. The distance between such vehicles shall be a minimum of two hundred (200) feet under all conditions. This provision shall not apply to funeral or other permitted processions.

State law reference--Similar provisions, 47 O.S. § 11-310.

No vehicle shall be driven over, across or within any such dividing space, barrier, or section, except through an opening in such physical barrier or dividing section or space or at a crossover or intersection as established unless specifically prohibited by public authority.

State law reference--Right-of-way generally, 47 O.S. § 11-401 et seq.

(b) When two (2) vehicles enter or approach an intersection from different highways, at approximately the same time, the driver of the vehicle on the left shall yield the right-of-way to the vehicle on the right.

Sec. 13-127. Vehicle turning left at intersection.

The driver of a vehicle within an intersection intending to turn to the left shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard but said driver, having so yielded and having given a signal when and as required by this chapter, may make such left turn, and the drivers of all other vehicles approaching the

(c) The driver of a vehicle approaching a yield sign shall in obedience to such sign slow down to a speed reasonable for the existing conditions, or shall stop, if necessary, as provided in section 13-193, subsection (e), and shall yield the right-of-way to any pedestrian legally crossing the roadway on which he is driving, and to any vehicle in the intersection or approaching on another highway so closely as to constitute an immediate hazard. Said driver having so yielded may proceed and the drivers of all other vehicles approaching the intersection shall yield to the vehicle so proceeding, provided, however, that if such driver is involved in a collision with a pedestrian in a crosswalk or vehicle in the intersection after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of his failure to yield right-of-way.

(d) Where two (2) or more vehicles face stop, slow, warning or caution signs or signals on two (2) or more intersecting cross streets and are approaching so as to enter the intersection at the same time, where each vehicle is required to stop, the vehicle coming from the right shall have the right-of-way. Where each vehicle is required to slow, the vehicle coming from the right shall have the right-of-way. Where each vehicle is required to take caution, the vehicle coming from the right shall have the right-of-way. Where one vehicle is required to stop and the other to slow or take caution, the one slowing or taking caution shall have the right-of-way.
